CORN WILL BE KING .- The newspapers in the cotton confederacy are arging the planters to reduce their crop of cotton, and to plant corn, so as to become independent of the grain-growing submissionists of the border states, and the republicans of thenorthwestern states. This is well enough, for the Chinese Empire will dethrone king cotton in a few years, so far as America is Garments Made to Order concerned. China now produces five times as much cotton as all the cotton states in North America, and has the soil and cli-mate to glut the markets of the world. Labor is dirt cheap in the Celestial Empire, and all that is now wanting is railroad fa cilities, and these they are now constructing. They are not raising the finer quali-ties of cotton in China, but it is because they have never tried. Their mode of culthey have never tried. Their mode of culture is rough and imperfect, but their climate and soil is superior, and whenever the experiment is made, it will be found that they can produce the finest fabrics in the world. Already the English are growing cotton of a superior quality in Australia, and they have commenced its culture in Algeria. Several of the islands that have Algeria. Several of the islands that never before have produced cotton, have recently engaged in its culture with success. "King otton," so far as America is concerned, has to come down from the throne, and "King Corn" and Duke Hog, of the border states, is to reign. The cotton states, therefore, instead of becoming 'independent, will be come the most dependent and helpless provinces in the civilized world. The backing and bolstering they had they have deprived themselves of, and they are out at sea, salling under separate flags, which can neither command respect at home or abroad.—

RESTORATION OF CAPT. MEIGS.—No man was more obnoxious to the thieving gang of whom the late Secretary Floyd was the chief, than Capt, Montomery C. Meigs, who had charge of the public buildings and the acqueduct at Washington. He was accordingly displaced and banished to the Tortugas. That banishment saved the important forts on those barren reefs from the attacks of the Florida traitors. Capt. Meigs was a patriotic and brave man, and secured the defences of the fortifications. It is a fitting reward for his services that he has been recalled and reinstalled in his old position about the national capitol.—Cincinnati Ga gas. President Lincoln was called upon by many of the congressional delegations at Washington, yesterday, and made an admirable speech in response to the congratulations of the Massachusetts delegation.

Seventy-two counties in North Carolina elect sixty-five Union and thirty-three secession delegates to the state convention.-The vote on holding a convention is close, and will require the official returns to decide it.

The Montgomery convention re-assembled on the 4th inst., and after adopting a flag for the southern confederacy, went into secret session.

In the Arkansas state convention, on the 4th, Union officers were elected, by a majority of six.

The traitor Twiggs was at. New Orleans yesterday, and met with a cordial reception from the secessionists there. The commanding officer at Fort Brown, Texas, contrary to Twiggs' orders, refused to surrender to the state authorities, and the rebel troops, it is reported, were concentrating there with a view of taking the fort.

The revenue cutter "Dodge" was seized by the secessionists at Galveston, Texas, on the second inst., the officer in command having played the traitor, going through the farce of tendering his resignation, and then tendering his services to the rebels.

as follows : If I had asked an attache of the press in Charleston if he thought Lieut Hamilton's iron-plated floating battery would be launched this morning from Mr. Marsh's shipyard, he very likely would have told me that he 'really didn't know; it was talked about; it was uncertain," etc. I told one of my specials that if he saw them greasing the ways, or doing anything stirring this morn ing, to hurry and tell me. So, at 7 A. M., he rushed into my room and informed me that everything was ready, and Lieut. Hamiton would give the word in a few minutes Arrived at Palmetto wharf, I saw a small crowd gathering, which each moment in-creased, as the news spread through the town. By a quarter past eight, at least 5,000 people were present, and the unknown quantity, called by many the "slaughter pen," rolled heavily and clumsily into her

new element. They have not christened her, and when they do, it is my private opinion that it will be done in the blood of all who embark in her. old fashioned rope-walk.

The machine fell into the water with a strong list to starboard, as the sailors phrase it, drawing on the gun side full seven feet, while on the other not more than four!— Lieut. Hamilton is an ambitious man, and first brought himself into palmetto notice by his extraordinary appeal to his ex-brothers of the American navy, to tear down the stars and stripes whenever they had a chance, and after nailing them ignomini-ously to the mast, to bring the ships into any confederate ports. The lieutenant is a brave man, even unto rashness; he can give no better proof of it than his intention o head the boys who are ambitious of seeking a bloody grave. It will take some time to get her ballasted, and to get her guns properly mounted, and then we wait for the ides of March.

SUDDEN DEATH .- A man named Martin Keaf was killed at the depot last evening. He came here from some place north, and was waiting for the evening train to go to McHenry county, Illinois. The wheels passed diagonally over his body, and both legs were nearly dissevered.

The body, we learn, has been sent to Mc-Henry country for interment.

AP Helbachez is the favorite sign by which natural state of the brails, and viewed in this light it may be looked on as a safeguard intended to give notice of discase which night otherwise except attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Lidopathic. Symptomatic headache is exceedingly common and is the procursor of a great variety of diseases, among which are Apoplexy, tiout, Rhaunatism and all febrile diseases. In its nervous form it is sympathetic of diseases of the stomach constituting sick headache, of hepatic disease constituting bilious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases or the heart are very frequently attended with headaches; Amenia and pletiora are also affections which frequently excession headache. Idiopathic bendache is also very common, being usually distinguished by the name of nervous headache, sometime conting on suddenly in a state of apparently sound besith and prestaring at once the mental and hydrical tinguished by the name of nervous handache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical enegles, and in other instance—it comes on slowly, hereighed hydepression of spirit—or acceptity of temper.—In most instances the pain is in the front of the head, over one or both eyes, and sometimes providing youlding; under this class may also be named Neuralpia. For the treatment of either tase of headche the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power cradicating the diseases of which head-ache is the unerring index.

Bridger.—Missus wants you to said her a box of Ce-halic Chie, no, a bottle of prepared Pills,—but I'm inkling take's not just it neither; but perhaps yo'll be lither knowing what is is. Yo see she's nigh dead-and one with the sick licadache, and wants some more of

aither Khowing what is is, xo see shars nigh cand and gone with the sick headache, and wants some more of that same us relaived her before. Druggist.—You must mean Spulding's Cephalic Pills, Bridget.—Och! sure now and you've sed it, here's the quarter and give me the pills and dont be all day about it aither.

Constipation or Costiveness.

Constipation or Costiveness.

No one of the "many ills flesh is belt to" is so provalent, so little understood, and so much neglected as contiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, white in reality it is the precursor and companion of many of the nost fatal and tangerous diseases, and unless early cradicated it will-bring the sufferer to an untimely grave. Among the lighter cylls of which costiveness is the usual attendant are Headkohe, Colic, Rhoumatism, Foul Breath, Files and others of like nature, while a long train of frightful diseases' such as Malignant Fovors, Abesses, Dysentary, Diarrheas, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypechondriasis, Melancholy and Insanity, first indicate their presence in the system by this abarming symptom. Not unfrequently the diseases named originate in Constipution, but take on an independent existence unless the cause is endicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no presence in the spectra of the complaint, as their thinely use will expel the instituous approaches of disease and destroy this dangerous foe to buman life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is your headache?

Mrs. Jones.—Gonel Doctor, all gonel the pill you sent cured me in just twenty minutes, and I wish you would send nore so that I can have them handy.

Physician.—You can get them at any Druggists.—Call for Cephalic Pills, I find they never fall, and I cocommond them in all cases of headache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a wal blessing.

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of bottles of his colebrated Prepared Gine, and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaims from total loss by this valuable invention. Having made his give a bouscheld word, he now proposes to do the world still greater service by enring all the neiting heads with his Cephalic Pills, and if they are as good as his gine, headache will soon vanish away like snow in July.

EF Over Exertesient, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of nervous headache. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and an bitton. Sufferers by this disorder can always obtain speedy relief from these distressing attacks, by using one of the Capitalle Pills whenever the approximation of the distribution of the stems of the stems of the strained and jarring nerves, and relaxes the tension of the otomach which always accompanies and aggravates the disordered condition of the brain.

FACT WORTH KNOWING.—Spaiding's Cephalic Pills are a certain cure for Sick Headache, Billous Headache, Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERT.—Among the most imperiant of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill for relief of headache, and the use of Quinius for the prevention of fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

D Did you ever have the sick headache? Do you remember the throbbing temples, the fevered brow, the loathing and disgnet at the sight of food. How totally sufit you were for pleasure, conversation or study.—One of the Cephair Fills would have releved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.
